

# 3M X36i

3M X36i

A brief introduction to the 3M X36i. The LCD projector has an XGA 1024 x 768 resolution and a contrast of 3000:1. The lamp life of the projector is specified as 5000 hours, which is equivalent to over 6.8 years at 2 hours per day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The projector will be able to illuminate the 493 cm picture width well. However, if room lighting is available, the picture width should ideally not exceed 329 cm. Playing 1080P is also no problem for the projector. The model was built by 3M in 2012 and is no longer current.
