Features

Screen Mirroring

Please note

The Sharp XV 3410 S LCD projector has 600 ANSI lumens and a resolution. An image width of up to 213 cm is possible, as the projector has 600 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 142 cm. It was released in 1996 and is no longer offered by the manufacturer Sharp. It should also be noted that, unfortunately, replacement lamps are no longer available for this projector, neither original nor aftermarket.
