

Sony VPL FH65 /W/B/L

SONY VPL FH65 /W/B/L

With the VPL FH65 /W/B/L, manufacturer Sony offers a stationary LCD projector with WUXGA 1920 x 1200 resolution and a contrast of 10000:1. Including a lens shift and keystone correction function, which provides freedom during installation. 787 cm image width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 525 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The projector can also play 1080P without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. At 28 decibels, the projector is very quiet compared to other projectors. The model built in 2015 is no longer offered by Sony.

 3 x 0,76" LCD TFT Panel
