

AAXA P5

AAXA P5

Brief Introduction

Beta 2.5

A brief introduction to the AAXA P5. The game-portable DLP LED projector has an HDTV 1280 x 720 resolution and a contrast of 1000:1. The manufacturer AAXA specifies a service life of 15000 hours, which is over 10.3 years with a daily viewing time of 4 hours. Including an integrated media player with which files can be played directly. 176 cm picture width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 117 cm. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. With only 30 decibels of operating noise, the model is already very quiet compared to others. The model built in 2016 is no longer offered by AAXA.
