The Aurzen Boom Mini is an LCD LED projector with HDTV 1920 x 1080 resolution and a contrast ratio of 1000:1. The manufacturer specifies an LED lifespan of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. The projector also offers an integrated media player that allows files to be played directly. An image width of up to 227 cm is possible. However, the image should be smaller in room lighting. We recommend a maximum of 151 cm. Thanks to Google TV, the projector can be conveniently controlled by voice command. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos from a smartphone, tablet, or PC (Android, Windows, and iOS) with high resolution and surround sound directly via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. The model is also compatible with Full HD 1080P and 4K (compressed).
