

Aurzen Roku TV Smart Projector

AURZEN ROKU TV SMART PROJECTOR

Brief Introduction

Beta 2.5

The Micro-Portable Roku TV Smart Projector LED LCD Projector from Aurzen has 330 ANSI lumens, a contrast ratio of 15000:1, and an HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a light life of up to 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. 330 ANSI lumens ensure that an image width of 185 cm is also possible. However, if there is room lighting, the image should be no more than 123 cm wide. Since the projector recognizes Airplay and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Playing 1080P is also no problem for the projector.
