

Aurzen ZIP Pro

AURZEN ZIP PRO

Brief Introduction

Beta 2.5

With the ZIP Pro, manufacturer Aurzen offers a portable DLP LED projector for gaming with HDTV 1920 x 1080 resolution and a contrast ratio of 300:1. Manufacturer Aurzen specifies a lifespan of 30,000 hours, which would equate to over 20.5 years at 4 hours of use per day. Thanks to horizontal and vertical keystone correction, the projector can be set up with great flexibility. The projector can effectively illuminate an image width of 102 cm. However, if there is ambient light in the room, the image width should ideally not exceed 68 cm. Thanks to the built-in 2 x 5,000 mAh (2.5-hour playtime) battery, no external power source is required, allowing for quick and flexible setup. The model supports DLNA, AirPlay, and Miracast screen mirroring, making it possible to play high-resolution videos with surround sound directly over Wi-Fi from a smartphone, tablet, or PC (Android, Windows, and iOS). In addition, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The projector also handles 1080p and 4K (compressed) playback with ease. At just 28 decibels, the device ranks among the quieter projectors.
