

Barco F12 1080

BARCO F12 1080

A brief introduction to the Barco F12 1080. The DLP projector has an HDTV resolution of 1920 x 1080 and a contrast of 4000:1. The projector will be able to illuminate a picture width of 601 cm well. The projector can manage rooms with residual light with a smaller image width, we would recommend a maximum of 401 cm here. Playing 1080P is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to the 360° projection. The projector is very quiet compared to others with an operating noise of 30 decibels. The projector was launched in 2009 and is no longer sold by the manufacturer. Unfortunately, we can no longer offer a replacement lamp for this model, neither original nor replica.
