

Barco Galaxy NW 7

BARCO GALAXY NW 7

The Galaxy NW 7 3D DLP projector from Barco has 7000 Ansi lumens, a contrast of 2000:1 and a WUXGA 1920 x 1200 resolution. The integrated lens shift gives freedom when positioning the projector. The projector will be able to illuminate a screen width of 850 cm. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 567 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Playing 1080P is also no problem for the projector. The projector was launched in 2009 and is no longer sold by the manufacturer. It should also be noted that there are unfortunately no longer any replacement lamps available for the projector, neither originals nor replicas.

Brief Introduction

Beta 2.5

Display Type

 3 x DLP Chip
WUXGA 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

Projector 7000

Screen 3111 Lux (bei 200 cm Screen)
