

Benq MW727

BENQ MW727

The Benq MW727 model is a DLP projector with WXGA 1280 x 800 resolution and a contrast of 11000:1. The model offers a microphone jack plug and 10W speakers, so no additional audio devices are required for presentations or training courses. 4200 Ansi lumens ensure that a picture width of 658 cm is also possible. The projector creates rooms with residual light with a smaller image width, we recommend a maximum of 439 cm. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. Playing 1080P and 3D is also no problem for the projector. The model built in 2014 is no longer offered by Benq.

Brief Introduction

Beta 2.5
