

Benq MX764

BENQ MX764

A brief introduction to the Benq MX764. The DLP projector has an XGA 1024 x 768 resolution and a contrast of 5300:1. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. With the lens shift function, the projector can be positioned very freely. The projector is equipped with a microphone jack plug and 10W speakers, so no additional speakers are required for presentations or training courses. An image width of up to 564 cm is possible as the projector has 4200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 376 cm. Even 1080P video signals are no problem for the projector. On the market since 2011, the model is no longer offered by the manufacturer Benq.

Brief Introduction Beta 2.5

Display Type

1 x DLP Chip
XGA 4/3 Ti Digital Light Processing Chip
