

Benq V5010i

BENQ V5010i

The short-throw V5010i laser DLP projector from Benq has 2500 ANSI lumens, a contrast ratio of 2500000:1 and a UHD (4K2K) 3840 x 2160 resolution. Manufacturer Benq specifies a lifespan of 20,000 hours, which is over 13.7 years at four hours of enjoyment per day. The integrated media player allows you to play files directly. A built-in horizontal and vertical keystone correction gives you freedom when setting up the projector. Thanks to the short-throw projection ratio of just 0.25:1, the projector does not interfere with the room either. For a 2m wide image, the projector only needs to be 50 cm away from the screen. The integrated Google Assistant in the projector opens up many practical possibilities such as voice-controlled navigation, smart home control, and listening to music. Since the projector recognizes Chromecast, Airplay, Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. Furthermore, it is Full HD 1080P and 4K compatible. The operating noise of only 28 decibels makes projection quiet.

Brief Introduction

Beta 2.5

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen
