

BIGASUO Roku TV

EAN/UPC:B0HBQLMX88

Brief Introduction

Beta 2.5

The Roku TV LED LCD has 140 ANSI lumens and an HDTV resolution of 1280 x 720. Thanks to its LEDs, the projector has a specified light source lifetime of 30,000 hours, which would equate to over 20.5 years based on 4 hours? viewing per day. Horizontal and vertical keystone correction provides flexibility when setting up the projector. An image width of up to 103 cm is possible. However, in well-lit rooms, the image should be set to a smaller size. We recommend a maximum of 69 cm. The projector supports AirPlay and Miracast screen mirroring, enabling high-resolution videos and surround sound to be streamed directly via Wi-Fi from smartphones, tablets and PCs running Android, Windows or iOS. Another useful feature is that the projector can be connected to external wireless speakers via Bluetooth. The projector also handles 1080p video signals with ease.
