

Boxlight CP 730e

BOXLIGHT CP 730E

A brief introduction to the Boxlight CP 730e. The LCD projector has an XGA 1024 x 768 resolution and a contrast of 500:1. The horizontal and vertical keystone correction allows the projector to be positioned very freely. The projector can illuminate a screen width of up to 408 cm thanks to its 2200 Ansi lumens. In room lighting, however, the picture width should ideally be less than 272 cm. The projector was launched in 2004 and is no longer sold by the manufacturer. It should also be noted that, unfortunately, there are no longer any replacement lamps for the projector, neither originals nor replicas.
