

Casio XJ S43

CASIO XJ S43

Brief Introduction

Beta 2.5

The Casio XJ S43 DLP projector has 2700 Ansi lumens, a contrast of 1800:1 and an XGA 1024 x 768 resolution. The horizontal and vertical keystone correction provides leeway when setting up. A picture width of up to 453 cm is possible. However, the picture should be smaller in room light. We recommend max. 302 cm. On the market since 2009, the model is no longer offered by the manufacturer Casio.
