

CeLunar H5

EAN/UPC:B0GM9XH2BV

CE L U N A R H 5

The H5 LED LCD projector from CeLunar has 1,200 ANSI lumens, a contrast ratio of 12,000:1, and an HDTV resolution of 1,920 x 1,080. It is an LED projector with a lamp life of 30,000 hours which equates to over 20.5 years of use at four hours per day. Since the projector features horizontal and vertical keystone correction, it can be set up with plenty of space in the room. An image width of up to 337 cm is possible thanks to the projector's 1,200 ANSI lumens. However, if there is ambient light in the room, the image should be no wider than 225 cm. Thanks to Google TV, the projector can be conveniently controlled via voice commands. The projector supports AirPlay and Miracast screen mirroring, which allows for the direct streaming of high-resolution videos and surround sound from smartphones, tablets, and PCs running Android, Windows, or iOS. In addition, thanks to its Bluetooth functionality, the projector can be easily paired with other speakers. The projector also handles 1080p and 4K (compressed) video signals with ease.
