

Christie LWU502

CHRISTIE LWU502

A brief introduction to the Christie LWU502. The LCD projector has a WUXGA 1920 x 1200 resolution and a contrast of 10000:1. The manufacturer Christie specifies a lamp life of 4000 hours, which is over 5.5 years with a daily viewing time of 2 hours. A picture width of up to 718 cm is possible as the projector has 5000 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 479 cm. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. It is also Full HD 1080P compatible. The model built in 2016 is no longer offered by Christie.
