

Christie LX501

CHRISTIE LX501

The stationary LX501 LCD has 5000 Ansi lumens, a contrast of 3000:1 and an XGA 1024 x 768 resolution. The integrated media player allows files to be played directly. The built-in lens shift and keystone correction function provides freedom when setting up. A picture width of up to 616 cm is possible, if the picture width is smaller (we recommend max. 411 cm), rooms with residual light are also no problem. Playing 1080P is also no problem for the projector, which can even project Blu-rays onto the ceiling thanks to 360° projection. The model built in 2012 is no longer offered by Christie.

 3 x 0,63" LCD TFT Panel
XGA 4/3 Liquid Crystal Display
