The standard portable P770 LED LCD has 210 Ansi lumens, a contrast of 2000:1 and a WVGA 800 x 480 resolution. Due to the LEDs, the projector is specified with 55000 hours of light life, which converts to over 37.7 years at 4 hours per day. As Crosstour specifies the brightness of the projector in lumens, we have calculated an approximate ansi-lumen value in this case. 210 Ansi lumens ensure that a picture width of 147 cm is also possible. However, if room light is available, the picture should be max. 98 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). The model is also Full HD 1080P compatible. This model is no longer offered by Crosstour.
