

Dell 7760

DELL 7760

Brief Introduction

Beta 2.5

The Dell 7760 stationary 3D laser DLP projector has 5400 Ansi lumens, a contrast of 100000:1 and an HDTV 1920 x 1080 resolution. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years if enjoyed for four hours a day. Includes a lens shift and keystone correction function, which provides freedom during installation. The model offers a microphone jack plug and 10W speakers, so no additional audio equipment is required for presentations or training courses. 747 cm picture width, the projector will be able to illuminate well. Rooms with residual light can be created by the projector with a smaller image width, we recommend a maximum of 498 cm here. The model is also Full HD 1080P compatible. On the market since 2016, the model is no longer offered by the manufacturer Dell.
