A brief introduction to the S300wi: The Dell 3D BrilliantColor DLP projector offers 2200 Ansi lumens, a contrast of 2400:1 and a WXGA 1280 x 800 resolution. The manufacturer specifies a lamp life of 5000 hours, which equates to over 6.8 years with a daily viewing time of 2 hours. Including an integrated media player with which files can be played directly. As it is a short-throw projector, the projector can be placed very close to the wall. For a 2 m wide image, the projector only needs to be 104 cm away from the screen. Playing 1080P is also no problem for the projector. The model was built by Dell in 2010 and is no longer current.
