The Dukane ImagePro 6752WU stationary 3D LCD projector has 5200 Ansi lumens, a contrast of 6000:1 and a WUXGA 1920 x 1200 resolution. The projector also offers a lens shift function that makes image adjustment childs play. An image width of up to 733 cm is possible as the projector has 5200 Ansi lumens. The projector can create rooms with residual light with a smaller image width, we recommend a maximum of 489 cm. If the image is still too small, the integrated edge blending software can help to project a larger image with additional projectors. The model is also Full HD 1080P and 3D compatible, and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° 1/2 projection. This model is no longer offered by Dukane.
