

Dukane ImagePro 7200A

DUKANE IMAGEPRO 7200A

The Dukane ImagePro 7200A model is an LCD projector with SVGA 800 x 600 resolution and a contrast of 150:1. As Dukane specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. The projector can illuminate a picture width of up to 141 cm well thanks to the 261 Ansi lumens. In room lighting, however, the picture width should ideally be less than 94 cm. On the market since 1999, the model is no longer offered by the manufacturer Dukane.
