

# Dukane ImagePro 9126-4K

EAN/UPC:605194006731

DUKANE IMAGEPRO 9126-4K

The large-screen ImagePro 9126-4K 3D laser DLP has 26000 Ansi lumens, a contrast of 30000:1 and a UHD (4K+2K) 4096 x 2160 resolution. Thanks to the laser, the service life is 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. 26000 Ansi lumens ensure that a picture width of 369 cm is also possible. The projector manages rooms with residual light with a smaller image width, max. 246 cm is recommended. If the image width is not sufficient, the projector offers integrated edge blending software, which allows several projectors to project a large image together. Furthermore, the projector can play 1080P and 4K as well as 3D without any problems, and thus all currently offered Blu-ray formats can be recognized by the projector. This model is no longer offered by Dukane, but is still very popular in our projector database.

3 x 1,38 " DC4K DLP Chip  
UHD 19/10 Ti Digital Light Processing Chip
