

# Epson EB-L610W

EPSON EB-L610W

The EB-L610W laser LCD projector from Epson has 6000 Ansi lumens, a contrast of 2500000:1 and a WXGA 1280 x 800 resolution. Thanks to the laser, the service life is 20000 hours, which is over 13.7 years if enjoyed for four hours a day. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. The built-in lens shift and keystone correction function provides freedom in projection adjustment. An image width of up to 787 cm is possible, if the image width is smaller (we recommend max. 525 cm), rooms with residual light are also no problem. The model is also Full HD 1080P compatible and even has the option of projecting HD 1080P Blu-rays onto the ceiling using 360° projection. The model was built by Epson in 2018 and is no longer current.
