

Epson USA PowerLite L500W

EPSON USA POWERLITE L500W

The stationary PowerLite L500W 3D laser LCD projector from Epson USA has 5000 Ansi lumens, a contrast of 2500000:1 and a WXGA 1280 x 800 resolution. The manufacturer Epson USA specifies a service life of 20000 hours, which is over 13.7 years with a daily viewing time of 4 hours. The projector is equipped with an integrated media player, so direct playback of files will not be a problem. As the projector has horizontal and vertical keystone correction, the projector can be set up with plenty of free space in the room. A picture width of up to 718 cm is possible, if the picture width is smaller (we recommend max. 479 cm), rooms with residual light are also no problem. Video signals 1080P and 3D are also no problem for the projector. The model built in 2018 is no longer offered by Epson USA.
