The Eroshoo HY320 mini game portable LED LCD projector has 200 Ansi lumens, a contrast of 1500:1 and an HDTV 1280 x 720 resolution. The manufacturer specifies an LED service life of 30,000 hours, which converts to over 20.5 years at 4 hours of use. The integrated media player can play files directly. The projector can illuminate an image width of up to 144 cm thanks to its 200 Ansi lumens. In room light, however, the picture width should ideally be less than 96 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS). Another extra is that the projector can be connected to external wireless speakers using the Bluetooth function. Even 1080P and 4K (compressed) video signals are no problem for the projector. With an operating noise of just 25 decibels, the model is already very quiet compared to others.
