

ETOE Starfish Plus

ETOE STARFISH PLUS

With the Starfish Plus, manufacturer ETOE offers an LCD LED projector with SXGA 1280 x 1024 resolution and a contrast ratio of 3000:1. Manufacturer ETOE specifies a service life of 30,000 hours, which equates to over 20.5 years of enjoyment at four hours per day. The projector also offers an integrated media player that allows files to be played directly. The projector can illuminate a 147 cm image width well. However, if there is room lighting, the image width should not exceed 98 cm. Google TV turns the projector into a versatile media hub that can be seamlessly integrated into a smart home. Since the projector recognizes Chromecast, Airplay, and Miracast screen mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, or PC (Android, Windows, and iOS) via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. Even 1080P and 4K (compressed) video signals are no problem for the projector. At just 24 decibels, the device is one of the quieter projectors available.

Brief Introduction
