

Everest A550X

EVEREST A550X

The stationary A550X LCD projector from Everest has 6000 Ansi lumens, a contrast of 50000:1 and an XGA 1024 x 768 resolution. The manufacturer specifies a lamp life of 20000 hours, which is equivalent to over 27.4 years at 2 hours per day. Built-in horizontal and vertical keystone correction provides freedom when positioning the projector. An image width of up to 675 cm is possible, if the image width is smaller (we recommend max. 450 cm), rooms with residual light are also no problem. With the HDMI MHL port, the smartphone image can be transmitted to the projector in Full HD at 60 Hz by screen mirroring and the smartphone is charged at the same time. The model is also Full HD 1080P compatible. The model is no longer offered by Everest.

Brief Introduction

Beta 2.5

Display Type

3 x 0,79" LCD TFT Panel
XGA 4/3 Liquid Crystal Display
