

Everest C741Wi

EVEREST C741Wi

The Everest C741Wi LCD projector has 4500 Ansi lumens, a contrast of 50000:1 and a WXGA 1280 x 800 resolution. The manufacturer Everest specifies a lamp life of 20000 hours, which is over 27.4 years if enjoyed for two hours a day. The projector also offers a lens shift function that makes image adjustment childs play. With a projection ratio of just 0.27:1, this projector never gets in the way. For a 2m wide image, the projector needs to be just 54 cm away from the screen. The HDMI MHL (Mobile High-Definition Link) port enables 1080p / 60 Hz image mirroring (screen mirroring) to be transmitted from a smartphone while it is being charged at the same time via the connection. The projector can also play 1080P without any problems. Even projection onto the ceiling is possible thanks to the 360° projection. On the market since 2019, the model is no longer offered by the manufacturer Everest.
