

EZCast Beam J4a

EZCAST BEAM J4A

A brief introduction to the Beam J4a: The EZCast Game-Portable LED DLP projector offers 300 Ansi-Lumen, a contrast of 5000:1 and a HDTV 1920 x 1080 resolution. Due to the LEDs, the projector is specified with 20000 hours of light life, which is over 13.7 years with a daily viewing time of 4 hours. A picture width of up to 176 cm is possible. However, the picture should be smaller in room light. We recommend max. 117 cm. Thanks to the built-in 9000mAh battery, no power supply is required, which means that the projector can be set up quickly and flexibly. In addition, the Bluetooth option is a useful addition to the projector, especially for wireless audio transmission. It is also Full HD 1080P compatible.

Brief Introduction Beta 2.5
