

Favi J7-LED-PICO

FAVI J7-LED-PICO

The Game-Portabel Favi J7-LED-PICO DLP projector has 100 Ansi-Lumen, a contrast of 1500:1 and a WVGA 854 x 480 resolution. The lamp life is specified by the manufacturer as 30000 hours, which is over 41.1 years if enjoyed for two hours a day. Includes an integrated media player that can be used to play files directly. A picture width of up to 102 cm is possible. However, the picture should be smaller in room light. We recommend max. 68 cm. Thanks to the built-in rechargeable battery, the projector does not require a power supply for 2 hours, so it can be set up spontaneously and easily anywhere. It was launched in 2014 and is no longer offered by the manufacturer Favi.

Brief Introduction

Display Type

1 x 0,3"DLP Chip
WVGA 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

100

44 Lux (bei 200 cm Screen)
