

Fuchiview T22H

FUCHIVIEW T22H

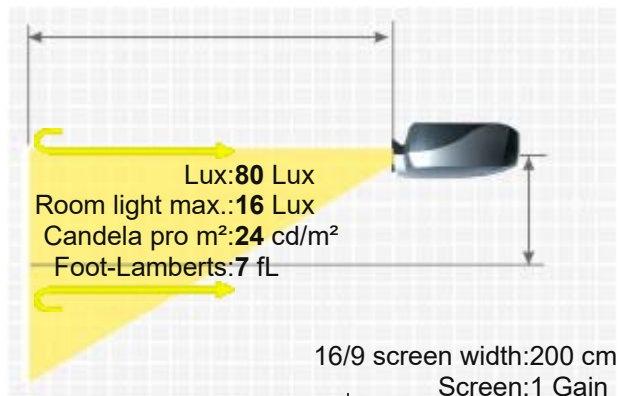

A brief introduction to the T22H: The Fuchiview game portable LCD projector offers 180 Ansi lumens, a contrast of 1000:1 and a WVGA 800 x 480 resolution. As Fuchiview specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. An image width of up to 136 cm is possible, as the projector has 180 Ansi lumens. However, if there is room light, the picture should be max. 91 cm wide. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS).
