

HAPPRUN JQ820

HAPPRUN JQ820

The standard portable HAPPRUN JQ820 LED LCD projector has 1000 Ansi-Lumen, a contrast of 20000:1 and an HDTV 1920 x 1080 resolution. It is an LED projector with a 30000 hour light lifespan, which would be the equivalent of over 20.5 years at 4 hours a day. The projector will be able to illuminate the 321 cm image width well. If room light is available, however, the image width should not exceed 214 cm. Since the projector recognises Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. Another extra to be mentioned is that the projector can be connected to external wireless speakers via Bluetooth. Video signals 1080P and 4K (compressed) are also no problem for the projector.

Brief Introduction

Beta 2.5
