The projector is equipped with an integrated media player, so playing files directly will not be a problem. The projector will be able to illuminate a screen width of 518 cm well. However, if room lighting is present, the screen width should ideally not exceed 345 cm. The model recognizes Airplay, Miracast Screen Mirroring signals, so it is possible to play videos with high resolution and surround sound directly via WLAN from a smartphone, tablet or PC (Android, Windows and iOS).
