

HOMPOW 4K Projector

HOMPOW 4K PROJECTOR

The Micro-Portable 4K Projector LED LCD has 1500 ANSI lumens, a contrast ratio of 10000:1, and HDTV 1920 x 1080 resolution. Manufacturer HOMPOW specifies a service life of 10,000 hours, which would be over 6.8 years if viewed for 4 hours a day. The horizontal and vertical keystone correction provides flexibility when setting up. The projector can illuminate an image width of up to 393 cm thanks to its 1500 ANSI lumens. However, in room lighting, the image width should ideally be less than 262 cm. The projector supports DLNA, Airplay, and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. Another extra feature worth mentioning is that the projector can be connected to external wireless speakers via Bluetooth. The model is also compatible with Full HD 1080P and 4K (compressed).
