

i3-Technologies i3PROJECTOR L3002UW

With the i3PROJECTOR L3002UW, manufacturer i3-Technologies offers a whiteboard DLP laser projector with HDTV 1920 x 720 resolution and a contrast of 1800:1. Due to the laser, the projector is specified with 20000 hours of light life, which is over 13.7 years with a daily viewing time of 4 hours. The integrated media player allows files to be played directly. As the i3PROJECTOR L3002UW is equipped with a microphone jack plug and 10W loudspeaker, no additional audio system is required for presentations or training courses. An image width of up to 556 cm is possible as the projector has 3000 Ansi lumens. However, if room light is available, the image should be max. 371 cm wide. A smartphone with MHL connection can be connected directly to the MHL/HDMI port and transmit a 1080p / 60 Hz image mirroring (screen mirroring) while the smartphone is being charged at the same time. It is also Full HD 1080P and 3D compatible. On the market since 2015, the model is no longer offered by the manufacturer i3-Technologies, but is still one of the most popular projectors.

Brief Introduction

Beta 2.5

Display Type

1 x 0,65" DLP Chip

HDTV 16/9 Ti Digital Light Processing Chip
