The InFocus Genesis IN118BB 3D BrilliantColor DLP projector has 3400 Ansi lumens, a contrast of 30000:1 and an HDTV 1920 x 1080 resolution. The lamp in the projector is specified with a lamp life of 10000 hours, which is over 13.7 years with a daily viewing time of 2 hours. An image width of up to 592 cm is possible as the projector has 3400 Ansi lumens. However, if room light is available, the picture should be max. 395 cm wide. It is also Full HD 1080P and 3D compatible. At just 30 decibels, the device is one of the quieter projectors. It should also be noted that there are unfortunately no more replacement lamps for the projector, neither original nor replica.
