

InFocus IN1102

INFOCUS IN1102

Brief Introduction

Beta 2.5

The InFocus model IN1102 is a DLP projector with WXGA 1280 x 800 resolution and a contrast of 1800:1. An image width of up to 477 cm is possible, as the projector has 2200 Ansi lumens. However, if room light is available, the image should be a maximum of 318 cm wide. Playing 1080P is also no problem for the projector. On the market since 2008, the model is no longer offered by the manufacturer InFocus, but is still one of the very popular projectors.
