

Jmgo G1

J M G O G 1

The Jmgo G1 DLP projector has 450 Ansi lumens, a contrast of 1000:1 and a WXGA 1280 x 800 resolution. The integrated media player allows files to be played directly. An image width of up to 216 cm is possible. However, the picture should be smaller in room lighting. We recommend max. 144 cm. Furthermore, the projector can play 1080P without any problems. The model built in 2017 is no longer offered by Jmgo.
