

Kindermann KXD480W active

KINDERMANN KXD480W ACTIVE

A brief introduction to the Kindermann KXD480W active. The DLP projector has a WXGA 1280 x 800 resolution and a contrast of 8000:1. The integrated lens shift gives freedom when positioning the projector. An image width of up to 566 cm is possible. However, the image should be smaller in room light. We recommend max. 377 cm. The projector is equipped with an integrated whiteboard function for interactive training and presentations. Playing 1080P and 3D is also no problem for the projector. This model is no longer offered by Kindermann, but is still a very popular projector.

Brief Introduction Beta 2.5
