

LG CineBeam HU70LSB Largo 4K

EAN/UPC:8806098723492

Brief Introduction

Beta 2.5

A brief introduction to the LG CineBeam HU70LSB Largo 4K. The DLP LED projector has a UHD (4K2K) 3840 x 2160 resolution and a contrast of 150000:1. Due to the LEDs, the projector is specified with 30000 hours of light life, which is over 20.5 years with a daily viewing of 4 hours. The projector also offers an integrated media player that can be used to play files directly. The projector will be able to illuminate the 393 cm picture width well. However, if room lighting is available, the picture width should ideally not exceed 262 cm. Video signals 1080P and 4K as well as 3D are also no problem for the projector, which means that all Blu-ray formats currently available can be recognized by the projector. The projector was launched in 2020 and is no longer sold by the manufacturer.
