

LG Cinebeam Qube 4K

LG CINEBEAM QUBE 4K

Brief Introduction

Beta 2.5

A brief introduction to the Cinebeam Qube 4K: The LG DLP projector offers 500 Ansi lumens, a contrast of 450000:1 and a UHD (4K2K) 3840 x 2160 resolution. The projector can illuminate an image width of up to 227 cm thanks to the 500 Ansi lumens. In room light, however, the image width should ideally be less than 151 cm. The projector has Airplay and Miracast screen mirroring support, which enables direct playback of videos in high resolution and surround sound from smartphones, tablets and PCs with Android, Windows or iOS via Wi-Fi. Even 1080P and 4K video signals are no problem for the projector. Even projection onto the ceiling is possible thanks to the 360° projection.

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip
