

Luxion LM X25

LUXION LM X25

Brief Introduction

Beta 2.5

A brief introduction to the LM X25: The Luxion DLP projector offers 2500 Ansi lumens, a contrast of 2500:1 and an SXGA+ 1400 x 1050 resolution. With the lens shift function, the projector can be positioned very freely. The projector will be able to illuminate a picture width of 435 cm well. However, if room light is available, the picture width should ideally not exceed 290 cm. At just 28 decibels, the device is one of the quieter projectors. It was launched on the market in 2006 and is no longer offered by the manufacturer Luxion.
