The X7 at a glance: The LYNCAST LED LCD projector offers 2000 ANSI lumens, a contrast ratio of 18000:1, and HDTV 1920 x 1080 resolution. Thanks to its LEDs, the projector has a specified light life of 30,000 hours, which would be over 20.5 years if viewed for 4 hours a day. It includes an integrated media player that allows files to be played directly. The brightness of 2000 ANSI lumens allows for an image width of 454 cm. In room lighting, the image should be a maximum of 303 cm wide. The projector supports Airplay and Miracast screen mirroring, which allows high-resolution videos and surround sound to be played directly from smartphones, tablets, and PCs running Android, Windows, or iOS via Wi-Fi. In addition, thanks to the Bluetooth function, the projector can be flexibly paired with other speakers. It is also compatible with Full HD 1080P and 4K (compressed).
