

Maypug F-P2

MAYPUG F-P2

The F-P2 LED LCD projector from Maypug has 200 ANSI lumens and an HDTV resolution of 1920 x 1080. Thanks to its LED technology, the projector has a specified lamp life of 30,000 hours ? which equates to over 20.5 years if used for four hours a day. The projector also features a built-in media player that allows files to be played directly. As the projector features horizontal and vertical keystone correction, it can be positioned with plenty of space around it in the room. 200 ANSI lumens ensure that an image width of 144 cm is possible. However, if there is ambient light in the room, the image should be no more than 96 cm wide. The model recognises DLNA, AirPlay and Miracast screen mirroring signals, making it possible to play high-resolution videos with surround sound directly via Wi-Fi from a smartphone, tablet or PC (Android, Windows and iOS) via Wi-Fi. The model is also compatible with Full HD 1080p and 4K (compressed).

Brief Introduction

Beta 2.5

Display Type

1 x LCD Panel
HDTV 16/9 Liquid Crystal Display
