

# Megapower ML132

MEGAPOWER ML132

## Brief Introduction

Beta 2.5

The Megapower ML132 DLP projector has 80 Ansi lumens, a contrast of 2000:1 and a WVGA 854 x 480 resolution. The manufacturer specifies a lamp life of 30,000 hours, which is over 41.1 years if enjoyed for two hours a day. The projector also offers an integrated media player that can be used to play files directly. The projector can illuminate images up to 91 cm wide thanks to its 80 Ansi lumens. In room lighting, however, the picture width should ideally be less than 61 cm. The projector can be operated for up to 1 hour using the rechargeable battery, making it easy to set up spontaneously anywhere. The model is also Full HD 1080P compatible. The projector was launched in 2013 and is no longer sold by the manufacturer.
