

Mentech X3

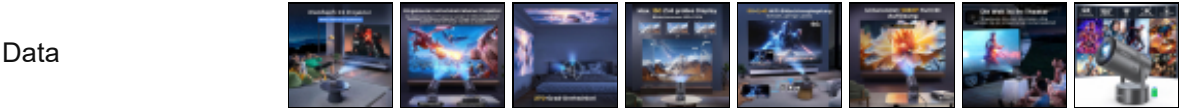

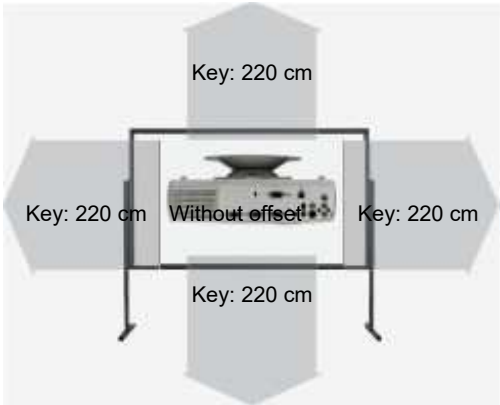

The Mentech X3 LED LCD projector has 300 ANSI lumens, a contrast ratio of 1400:1 and HDTV 1920 x 1080 resolution. The LEDs give the projector a lifespan of 30,000 hours of light, which is the equivalent of over 20.5 years at 4 hours a day. The integrated media player can play files directly. A built-in horizontal and vertical keystone correction provides freedom when setting up the projector. The projector can illuminate up to 176 cm image width well thanks to the 300 ANSI lumens. However, in room light, the image width should ideally be less than 117 cm. The built-in 2600mAh battery eliminates the need for a power supply, allowing the projector to be set up quickly and flexibly. Since the projector recognizes Airplay, Miracast Screen Mirroring signals, it is possible to play videos with high resolution and surround sound directly from a smartphone, tablet, PC (Android, Windows and iOS) via WLAN. In addition, the Bluetooth option is a useful addition for the projector, especially for wireless audio transmission. Video signals 1080P and 4K (compressed) are also no problem for the projector. The operating noise of only 25 decibels makes projection quiet.
