

Microvision SHOW

Brief Introduction

Beta 2.5

A brief introduction to the Microvision SHOW. The game portable DLP projector has a WVGA 848 x 480 resolution and 50 Ansi lumens. The rechargeable projector is not dependent on a direct power source and can therefore be set up very quickly, freely and spontaneously. The projector was launched in 2008 and is no longer sold by the manufacturer, but is still a very popular projector.
