

miroir MP160

M I R O I R M P 1 6 0

The MP160 DLP has 174 Ansi lumens, a contrast of 400:1 and an HDTV 1280 x 720 resolution. Since miroir specifies the brightness of the projector in lumens, we have calculated an approximate Ansi lumen value in this case. 134 cm image width, the projector will be able to illuminate well. However, if room light is available, the image width should ideally not exceed 89 cm. Thanks to the built-in 5000 mAh battery, no power supply is required, allowing the projector to be set up quickly and flexibly. Even 1080P video signals are no problem for the projector. This model is no longer offered by miroir.

Brief Introduction

Display Type

1 x DLP Chip
HDTV 16/9 Ti Digital Light Processing Chip

Ansi-Lumen

174 / 200 Lumen

77 Lux (bei 200 cm Screen)

Contrast
